

DAL by 0.8

51%

LAS win 49% · pick'em (0) · DAL win 51%

Shaded area each side of pick'em = each team's win chance; dark tick = our call.

Projected score DAL 83 — LAS 85 · Total 176

Some inputs served from the most-recent available build (winprob) — see companion file for detail.

Read

DAL is the narrow side of a near coin-flip (51% to win). The catch: LAS is down a rotation piece — K. Plum (impact +2.7) is OUT and already removed from the projection below.

- DAL is the narrow side of a near coin-flip here (51% to win); we project DAL 83, LAS 85.
- Projected as a higher-scoring game (total near 176).
- Availability: DAL 1 GTD (A. Smith); LAS without K. Plum (1 OUT) — OUT players are excluded from the box; the minutes of any projected among them are redistributed into the rotation below.
- How sure: 4 games in 5 the DAL margin lands between -20 and +15 (+ = DAL ahead) — single games swing a lot, and even so DAL loses outright about 49% of the time.

Injuries & availability — out of the projected box

TEAM	PLAYER	STATUS / CAUSE	GAMES MISSED	EXP. RETURN
LAS	Kelsey Plum	Lower leg	8	Jul 28
DAL	Alanna Smith	Day-to-day · leg	0	Jul 19

Cause read from the injury feed's report; games missed = the team's games played since the player last appeared; expected return as reported ('TBD' = no date given).

Players to watch

Each side's top two projected scorers — biggest game-changer first (impact = points added vs an average player); the % is the team's scoring each carries.

- LAS** N. Ogwumike 15 pts (18% of LAS's scoring) / 8 reb / 3 ast in 28 min · +0.5 impact · **D. Hamby** 13 pts (15% of LAS's scoring) / 6 reb / 2 ast in 28 min · +0.4 impact
- DAL** P. Bueckers 18 pts (21% of DAL's scoring) / 4 reb / 6 ast in 32 min · +1.2 impact · **J. Shepard** 13 pts (15% of DAL's scoring) / 10 reb / 4 ast in 30 min · +0.2 impact

Projected box

Big # = jersey · bold above the line = projected starters (top-5 minutes) · IMPACT = points added vs an average player per 100 possessions (— = not yet rated).
Source: per-slate minutes + player-rate projections, availability-adjusted (minutes → 200, points scaled to the simulation score).

A deeper look

What tonight means

A win tonight puts **LAS's** playoff chances at **77%** — a loss drops them to **64%**.
Across both teams that makes this the **1st-biggest playoff-swing game** of this week's 6 remaining games.

LAS

if they win

77%

if they lose

64%

Playoff swing: 13 points · Typical seed: about 8th either way.

DAL

if they win

100%

if they lose

99%

Playoff swing: 1 points · Typical seed: about 4th either way.

Source: the rest of the season replayed 10,000 times, split by tonight's result (may differ from the headline odds by a fraction of a point — same simulation, different run counts).

Starting-five skill profiles

Source: league-percentile bars from each player's most recent full-season profile (the 2025 season); first-year players have none yet. Estimated from public play-by-play.

Appendix — how the numbers are made

- Scores, totals & the margin distribution = a 1M-run Monte-Carlo simulation; spread = regression + home recalibration; the margin curve & ranges are calibrated intervals (~89% observed coverage at the 90% target); playoff leverage = the season replayed 10,000 times, split by tonight's result.
- Player values = per-minute rates (last-10-games form → season → positional average) × projected minutes, team points scaled to the simulation total. Minutes = per-slate projection + injury redistribution under per-player caps — OUT players removed and their minutes reallocated (box sums to 200; a "provisional" team has rotation players missing from tonight's model, so its box shows only the modeled minutes and is not inflated).
- Some player-level estimates lean on the limited public play-by-play for this league; richer tracking data would sharpen them.

THE SEASON SO FAR (through 998 games): Our spread calls miss by an average of 10.8 points · when we make a team a 60%+ favorite, they win 68% of the time · player minutes within +/-6.0, points within +/-3.9 (player lines: reconstructed day-before for all 143 games; live tracking began Jul 8.)
Recent monthly accuracy (average miss, lower is better): May '25 9.9 · Jun '25 10.7 · Jul '25 11.7 · Aug '25 10.0 · Sep '25 10.3 · May '26 11.1 · Jun '26 10.6 · Jul '26 12.2 points.
all-games: spread +/-10.8 · minutes +/-6.0 · points +/-3.8
