Every projected line

The grey figure under each number is the range we expect it to land in four times in five. It is deliberately wide — a range that looks confident and is wrong is worse than a wide one that is right. A number with no grey line under it is one we hold no fitted range for. IMPACT is points added versus an average player per 100 possessions; a dagger means the rating comes from her earlier record because she has no floor time this season yet, and a dash means we hold no rating for her at all.

## Appendix — how the numbers are made

- Scores, totals & the margin distribution = a 1M-run Monte-Carlo simulation; spread = regression + home recalibration; the margin curve & ranges are calibrated intervals (~89% observed coverage at the 90% target); playoff leverage = the season replayed 10,000 times, split by tonight's result.
- Player values = per-minute rates (last-10-games form → season → her own career, or her college record translated into WNBA rates, → positional average) × projected minutes, team points scaled to the simulation total. A row built mostly from a prior rather than from this season says so on the row itself. Minutes = per-slate projection + injury redistribution under per-player caps — OUT players removed and their minutes reallocated (box sums to 200; a "provisional" team has rotation players missing from tonight's model, so its box shows only the modeled minutes and is not inflated).
- Some player-level estimates lean on the limited public play-by-play for this league; richer tracking data would sharpen them.

**THE SEASON SO FAR (through 998 games):** Our spread calls miss by an average of 10.8 points · when we make a team a 60%+ favorite, they win 68% of the time · player minutes within +/-5.2, points within +/-4.2 (player lines: reconstructed day-before for all 143 games; live tracking began Jul 8.)  
**Recent monthly accuracy (average miss, lower is better):** May '25 9.9 · Jun '25 10.7 · Jul '25 11.7 · Aug '25 10.0 · Sep '25 10.3 · May '26 11.1 · Jun '26 10.6 · Jul '26 12.2 points.
