

Early-morning deep synthesis. Assembles the already-baked projection bundle with the league scouting boards — nothing is recomputed. Companion to the gameday one-pager; this is the scouting-and-reasoning layer.

Fair-value readout (audit, not a directional call)

- **Fair spread:** POR by 0.4 (model home-margin +0.4).
- **Fair projected score:** LAS 83.6 — POR 79.6.
- **Fair total:** 163.2.
- **Rest:** POR 2d / LAS 5d — LAS rested (+3d).
- *These are the platform's own fair lines — an audit of the model, not a directional call. No market price is quoted or implied.*

LAS — opponent scouting edges

- **Rim protection (last season):** Kelsey Plum grades best among qualified defenders on the floor (SAE +2.12/100 on 66 rim shots faced).
- **Zone scoring — Ariel Atkins:** league-board shot-maker (Corner 3, +28.4 PAX/100).
- **Zone scoring — Kelsey Plum:** league-board shot-maker (Corner 3, +18.6 PAX/100).
- **Zone scoring — Nneka Ogumike:** league-board shot-maker (At the rim, +18.5 PAX/100).
- **Elite finisher:** Nneka Ogumike (+12.7 PAX/100 overall).

LAS — rotation reasoning

- **Projected top-5 minutes:** Kelsey Plum (29), Rae Burrell (27), Nneka Ogumike (26), Dearica Hamby (26), Ariel Atkins (25).

POR — opponent scouting edges

- **Rim protection (last season):** no qualified rim protector projects onto the floor (2 graded on a sub-40-shot sample — too thin to rank) — LAS's at-rim scorers face a soft interior.
- **Elite finisher:** Karlise Samuelson (+12.1 PAX/100 overall).

POR — rotation reasoning

- **Out (2):** Sania Feagin, Sarah Ashlee Barker — their minutes are redistributed across the rotation below.
- **Projected top-5 minutes:** Bridget Carleton (30), Carla Leite (28), Megan Gustafson (24), Emily Engstler (23), Frieda Buhner (16).

Matchup implication

- **LAS at the rim:** POR projects no qualified rim protector on the floor — LAS's interior scorers face a soft rim (last-season grades).
- **POR at the rim:** must contend with Kelsey Plum (rim SAE +2.12/100, last season) anchoring LAS's interior.

Generated 2026-08-02T11:14:59Z by scripts/deep_scouting_report.py — incremental assembly of docs/gameday/2026-08-02/_manifest.json + site/scouting.json + site/scouting_zone.json. No DB write, no model re-fit; read-only join of baked outputs.
