Read

ATL is a slight favorite (57% to win). The catch: 1 projected bench spot(s) lean on a positional average (little game data yet) — treat those minutes as low-confidence.

- ATL is a slight favorite here (57% to win); we project **ATL 84, WAS 77**.
- The model's on-court player ratings tilt to **ATL** — its top three rate **+6.5** combined vs **+2.2** on the other side (impact = points added vs an average player; see the box).
- Availability: **ATL** without T. Paopao (1 OUT) — OUT players are excluded from the box; the minutes of any projected among them are redistributed into the rotation below.
- How sure: 4 games in 5 the **ATL** margin lands between **-14** and **+18** (+ = ATL ahead) — single games swing a lot, and even so ATL loses outright about 43% of the time.
- 1 deep-bench player(s) projected from a positional average (little game data yet) — grouped in the box and treated as low-confidence.
